COALITION FOR A  
TOBACCO-FREE HAWAII

July 10, 2013 CITY CLERK  
HONOLULU, HAWAII

Aloha Chair Martin and members of the Honolulu City Council,

The Coalition for a Tobacco-Free Hawaii (Coalition) strongly supports Bill 28, CD 2. The Coalition for a Tobacco Free Hawaii (Coalition) is an independent organization in Hawai'i who works to reduce tobacco use through education, policy and advocacy. Our organization is a nonprofit organization with over 100 member organizations and 2,000 advocates that work to create a healthy Hawaii through comprehensive tobacco prevention and control efforts.

The Coalition appreciates the reference to the definition of "public place" as defined by Section 29-1.1

The dangers of smoking and secondhand smoke are well-known. The U.S. Surgeon General, in 2010, notes that any level of exposure to secondhand smoke is dangerous and can be harmful. Bus stops often attract large numbers of people, and commuters have limited opportunities to avoid secondhand smoke in these areas. Many families, elderly people, and people with disabilities use TheBus for their regular transportation, putting them at risk of exposure to secondhand smoke. TheBus sees over 236,000 trips on weekdays.<sup>1</sup>

Growing scientific evidence shows that secondhand smoke has a harmful effect on air quality in some outdoor settings. Studies have shown that when people are in close proximity to each other, the levels of exposure to secondhand smoke can be comparable to secondhand smoke levels measured within enclosed spaces.<sup>2</sup> Prohibiting smoking at bus stops or public transit waiting areas is a growing trend. 277 municipalities in 33 states have these policies, and we would like to see the City & County of Honolulu added to the list.<sup>3</sup>

The Coalition strongly supports this effort in order to protect the health of all people in public spaces. We look forward to working with our city and state governmental agencies, including TheBus, the Department of Health, the Honolulu Police Department, and any other stakeholders, to ensure a successful implementation of this new policy.

Thank you for the opportunity to testify.

Annie Hollis, MSW, Public Health Policy & Advocacy Director  
Coalition for a Tobacco-Free Hawai'i
